

My First &

MONTESSORI SCHOOL

— ONLINE —

MFMS Online

My First Montessori School Online (MFMS Online) is a live virtual Montessori experience. MFMS Online is teacher-led, family-supported, while instilling the guiding Montessori principles that are rooted in our virtual learning methodology.

Our Mission

Our mission is to create an enriching Montessori environment from the comfort of your own home, while fostering your child's social interactions and academic growth.

Our Vision

Our vision is to educate and nurture future leaders through our high-quality program by creating virtual experiences that lead to the whole development of children around the world.

Our Values

- Safety and Security
- Trust
- Community

Why Choose Us?

The Montessori Approach

The Montessori method of learning is renowned as one of the most innovative and intelligent teaching methods available for young children. It was created by Dr. Maria Montessori in 1907, who was a respected Italian physician, educator, and philosopher. Montessori's approach to the education of a child is unique in that it is based on the observation of the child and following his or her abilities and interests. MFMS Online has created a virtual methodology that adopts these principles.

Keeping You Informed

Our approach ensures we work in partnership with families to promote open communication for the mutual benefit of the child. We welcome parents to speak with teachers daily and will be available via e-mail or phone. MFMS Online also subscribes to the HiMama app which provides parents updates on your child's activities, as well as the weekly schedules sent directly to your email and smartphone.

Security

With MFMS Online, security is of utmost priority. Applying Zoom's in-meeting security capabilities, our virtual classrooms and tutoring sessions are secure, encrypted, locked, and password-protects. In addition, our policy ensures that videos must be turned on and participants are screened by a supervisor before attending sessions.

A photograph of a child's hands working with a piece of blue clay on a wooden desk. The desk is cluttered with school supplies, including a white keyboard, a pair of white scissors, a pen, and a red pom-pom. The background is slightly blurred, showing a laptop and other items. The text 'Virtual Classrooms' is overlaid in a green, serif font.

Virtual Classrooms

Designed by certified Montessori teachers, our virtual classrooms are created for children ages 16 months to 6 years, with the goal of preserving the continuity of learning while maintaining your child's daily structure.

MFMS Online's approach to education enable children the freedom to explore and learn, mostly through self-direction - a method that provides the child an opportunity to grow intellectually, physically, emotionally and cognitively.

Key Characteristics:

- Safe and secure LIVE virtual classroom in groups of 12 students
- Lesson plans prepared by certified Montessori teachers
- Structured daily schedules that virtually replicate in-school Montessori activities
- Specialty programs included
- Full-time and part-time options
- Suggested meal plans as followed by the Canada Food Guide recommendations for each age group

You Need:

- Family member (if required)
- Mobile device (laptop or tablet) with microphone and webcam
- Connection to internet
- Access to Zoom
- Printer with coloured ink
- Materials as requested by weekly list provided

Specialty Programs

Dance

This weekly class promotes a balanced physical and mental development of the child. It also helps to build strength, flexibility, and confidence.

Yoga

Yoga class helps to encourage a balance between physical and spiritual development. Through a series of postures and breathing practices, yoga can help calm and refresh the body and mind.

Music

Music has many benefits such as building social skills, exposing children to different sounds from around the world, and raising everyone's spirits.

Karate

Age-specific activities target the development of gross motor skills, concentration and character building. Students will grow emotionally, as well as learn about self-control, discipline, and respect.

French

Children have the ability to easily absorb language between birth to six years of age. Children interact and enjoy learning French through the use of pictures, objects, and music.

Virtual Private Tutoring

Private one-on-one tutoring sessions with certified Montessori teachers.

Supplement your child's current academic plan with a tailored Montessori tutoring program.

Work with our teachers to tailor an education plan with a focus on math, language, and culture.

Sessions available from Monday to Sunday (9am to 7pm).

30-minute or 60-minute session options.

French Private Tutoring Available

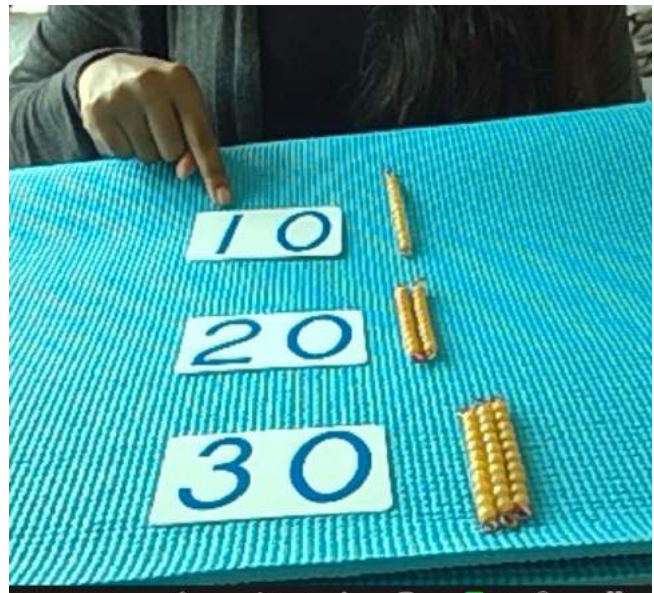

French lessons are presented naturally, humorously, imaginatively and with limited English. Reinforcing the Montessori principles, vocabulary is introduced via concrete items, as well as stories, rhymes, mime, games, songs, art activities, and puzzles.

Sample Tutoring Lesson Plan

	Language	Math	Culture
Monday	Printing Gg	Colour and label teen beads	Colour and label South America
Tuesday	Reading short phonetic sentences	Shapes review	Parts of the Horse
Wednesday	Sight words review	Colour and label rhombus	Colour and label Hooves
Thursday	Reading short story of choice	Introduction of tens	Canadian provinces
Friday	Practice writing long phonetic words	Label the ten quantities	Review the map of Canada
