

# MFMS Cares for Ukraine

## About Us

We are a Canadian Edtech company on a mission to educate as many early years children using our handcrafted virtual Montessori methodology. We have been able to educate over 500 students to date including Canada, the US, Mexico, UK, Switzerland, Ecuador, Armenia, Moldova, Japan, Oman, Serbia, Kazakhstan, and France. The MFMS Cares program is designed to provide a **FREE** helping hand to children who do not have access to a quality education.

## Supporting Ukraine

Through our MFMS Cares initiative, affected children will be able to access a wide variety of **FREE** Montessori/Extracurricular virtual classes (conducted in English), allowing them to continue their education despite the circumstances they are in.

The MFMS Cares team is looking to partner with Charitable Organizations to help communicate our free services to children in need.
