ABOUT MFMS

My First Montessori School Online ("MFMS Online") is a Canadian Edtech company on a mission to educate as many early years children using our handcrafted virtual Montessori methodology. Backed by our brick-and-mortar Montessori school (located in Toronto, Canada), we have created a Virtual Montessori program that has educated over 500 children worldwide (from countries including Canada, the US, Mexico, UK, Switzerland, Ecuador, Armenia, Moldova, Japan, Oman, Serbia, Kazakhstan, and France).

Our Mission

Our mission is to create an enriching Montessori environment from the comfort of your own home, while fostering your child's social interactions and academic growth.

Our Vision

Our vision is to educate and nurture future leaders through our high-quality program by creating virtual experiences that lead to the whole development of children around the world.

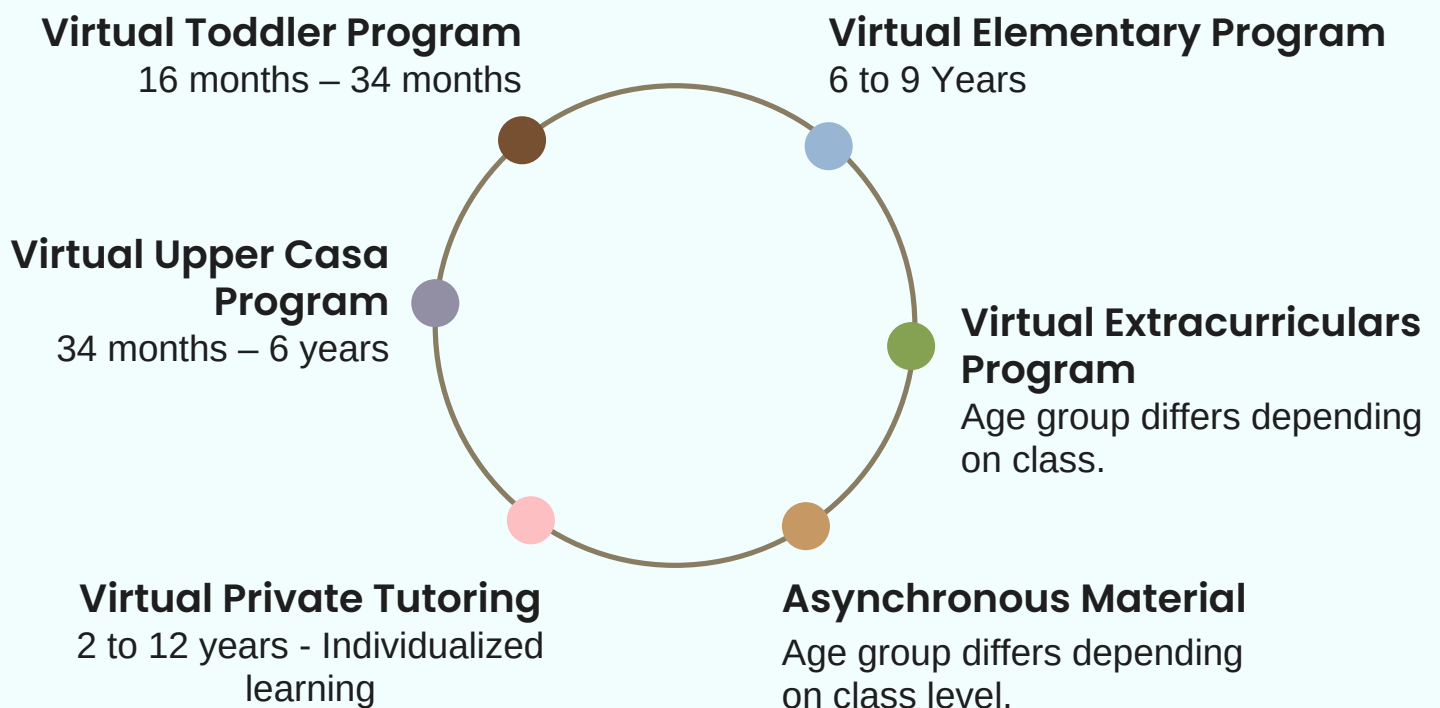

Our Values

- Safety & Security
- Trust
- Community

WE WANT TO PARTNER WITH YOU!

The MFMS Online team is looking to provide school boards with the opportunity to enrich their educational programs by incorporating our virtual Montessori services into their institutions. As we normalize the virtual school environment, MFMS Online can be used by schools with limited resources, allowing children to access a high-quality education from the comfort of their own home, learn at their own pace, and experience real life examples of the five areas of the Montessori classroom.

Our Services In Depth

All programs are instructed LIVE by certified Montessori teachers

WE CAN HELP YOU!

1. YOUR VIRTUAL BEST FRIEND

MFMS Online integrates the real-world with the virtual classroom. Students not only receive a higher quality education compared to traditional homeschooling, but they also gain skills that will allow for growth, including independence, communication, self-help and more in a flexible manner.

2. THE NEED OF VIRTUAL RESOURCES

My First Montessori Online can help provide virtual resources to school boards across Canada for children ages 18 months to 12 years of age. Through our programs, students will be able to enrich themselves with a new world of education while remaining online.

3. SUPPORTING CHILDREN, NO MATTER WHAT

As students are increasingly self-isolating due to COVID-19 concerns, they may begin experiencing gaps in their academics. MFMS Online can be used as the virtual alternative for you. Our expertise in providing an online education can be leveraged to operate a virtual school catered to your school board's needs!

"We have seen a clear improvement in Ayden's skills, in a short period of time with 1:1 online tutoring. Lesson plans designed for the individual child is what makes this work. Michelle truly cares about the child's academic success – highly recommend without any reservation."

Melissa

"The tutoring sessions have been very helpful for both parents and child. At least this way I know she is learning the Montessori way, and we are not confusing her by teaching her methods of old. Thank you for the support, It is much appreciated. It is not easy trying to convince a 4 year old to do homework."
